Dear Mr. Fidei,

I am writing in response to the office communication sent from your office on 11/3/97 regarding my request for an extension of time in completing the claims and drafting portion of my patent application (#0872234) filing date 9/27/96).

Due to both financial and professional limitations I am in need of assistance in completing the claims and drafting portions of my application.

Therefore, I would like to request any and all assistance available through the PTO in meeting the application requirements for my claims and drafting portion.

Thanking you in advance for your consideration.

Sincerely,

Lisa Watkins
